Aranda stated that Nancy Ojeda, with the DWR is attending the OBGMA meeting via zoom and that they

had discussed the unique situation that small agencies are dealing with, since SGMA is a one size fits all they are working on streamline reporting.

Aranda reported the State Controllers Report is being prepared. Aranda stated VanDerMeer will be submitting the Board's emails to the Fair Political Practices Commission (FPPC) for the Form 700 reporting which is due April 1, 2025.

### **Background and Discussion**

An Annual Report for the Ojai Valley Groundwater Basin (OVGB), which covers the preceding water year (October 1 to September 30), must be submitted to the California Department of Water Resources by April 1 of each year in compliance with the Sustainable Groundwater Management Act (SGMA). The Annual Report Covering Water Year 2024, Ojai Valley Groundwater Basin, covering the period October 1, 2023, to September 30, 2024, is attached. Key findings, as shown in the Executive Summary, are:

### **Groundwater Conditions**

- In water year 2024, the OVGB received approximately 29.65 inches of precipitation, which is approximately 140% of the long-term historical average annual precipitation rate.
- In response to the wetter-than-average conditions, seasonal high groundwater elevations increased at all representative monitoring points (RMPs) by approximately 4 to 55 feet (except one well which had a slight decrease of approximately 3 feet) over water year 2024.
- Groundwater in storage was estimated to have increased over water year 2024 by approximately 6,148 acre-feet (AF). Since spring 2014, groundwater in storage in the OVGB has increased approximately 18,116 AF.
- Groundwater elevations at representative monitoring points (RMPs) remained above established minimum thresholds in water year 2024.

### **Total Water Use**

- Groundwater extraction totaled approximately 3,349 AF in water year 2024, with the agriculture sector accounting for approximately 51% of total extractions and the municipal/industrial sector accounting for approximately 40% of total extractions. Of the total municipal/industrial extractions, the majority was for the Ojai Water System, owned and operated by Casitas Municipal Water District (CMWD).

- Surface water use (Lake Casitas water provided by CMWD) totaled approximately 1,175 AF in water year 2024.
- Total water use was approximately 4,524 AF in water year 2024

### Projects and Management Actions

- The OBGMA started and is currently implementing several projects and management actions including development of a new data management system, preparation of a groundwater sampling and analysis plan, review and improvement of the existing extraction metering program, continued monthly monitoring of surface and groundwater conditions, and identification of future GSP funding opportunities.

The Annual Report Covering Water Year 2024, Ojai Valley Groundwater Basin will be submitted to DWR prior to the April 1 deadline and posted to OBGMA's website.

### **Budget Impact**

There is no immediate budget impact related to receipt and filing of the Annual Report Covering Water Year 2024, Ojai Valley Groundwater Basin.
